The Destino™ Steerable Guiding Sheath Features:

- Soft, atraumatic tip reduces potential for trauma during transseptal punctures and provides smooth transition to catheter
- Radiopaque tip marker enhances fluoro visibility
- Steerable hydrophobic coated sheath improves access to hard-to-reach sites and eliminates need to change out sheaths to reach desired position
- Braided Flexsteer™ shaft provides exceptional torqueability, pushability, and kink resistance

Advanced braided shaft technology

Smooth tip to dilator transition / two sheath side holes

Destino™
Bi-directional
Curve Options

The Destino™ Steerable Guiding Sheath Features:

- Bi-directional steering allows dual deflection for maximum maneuverability
- Ergonomic handle with curve diameter and French size indicator provides precise control and more comfort
- Reliable valve provides effective hemostasis and seals down to a 0.014 inch guidewire
- Maximum compatible guidewire 0.038"/0.97 mm
- Dilator tip construction and depth markings ensures exact needle exposure

Dilator with French size and guidewire indicator
